**Note**

1. The Post-petition Trade Accounts Aging presented above is calculated off of the invoice date (rather than the due date of the invoices). Balances reflected in the various aging categories do not necessarily reflect past due balances. In cases where invoices for services include pre and post-petition periods, the invoices have been split; no change has been made to the invoice date in these cases.

2. Substantially all amounts included in the "31 – 60 days" Aging row relate to railcar lessor invoices, which are invoiced in advance of the actual month of usage. These railcar invoice amounts reflect current contract rates (as invoiced). The Debtors dispute that current contract rates are due and payable to the railcar lessors; the Debtors submit that amounts due and payable on a postpetition basis should reflect current market rates and are working with the railcar lessors and the Court to resolve these billing amounts.
